Service Definition:

A. Assistive technology and adaptive equipment means an item, piece of equipment, or product system, whether acquired commercially, modified, or customized, that is used to increase, maintain, or improve functional capabilities of participants which may also support increased community inclusion.

B. Assistive technology and adaptive equipment include:

1. Communication devices;
2. Visual or auditory support technologies;
3. Any piece of technology or equipment that enables an individual greater ability to live independently; and
4. Assessments, specialized training, and upkeep and repair of devices needed in conjunction with the use of devices and equipment purchased under the waiver; and
5. Assistance in the selection, acquisition, or use of an assistive technology and adaptive equipment devices.

C. Assistive technology includes:

1. the evaluation of the assistive technology needs of a participant, including a functional evaluation of the impact of the provision of appropriate assistive technology and appropriate services to the participant in the customary environment of the participant;
2. services consisting of purchasing, leasing, or otherwise providing for the acquisition of assistive technology devices for participants;
3. services consisting of selecting, designing, fitting, customizing, adapting, applying, maintaining, updating, repairing, or replacing assistive technology devices;
4. coordination and use of necessary therapies, interventions, or services with assistive technology devices, such as therapies, interventions, or services associated with other services in the Individual Plan;
5. training or technical assistance for the participant, or, where appropriate, the family members, guardians, advocates, or authorized representatives of the participant; and
6. training or technical assistance for professionals or other individuals who provide services to, employ, or are otherwise substantially involved in the major life functions of participants.

D. Adaptive equipment includes:
   1. devices, controls, or equipment that enable participants to increase their ability to perform activities of daily living or to perform employment activities, if the equipment would not otherwise be provided by the employer for an individual without a disability;
   2. devices, controls, or equipment that enable the participant to perceive, control, or communicate with the environment in which they live or work; and
   3. such other durable and non-durable medical equipment not available under the State Plan that is necessary to address participant functional limitation

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

A. These services shall be reimbursed only if:
   1. Pre-authorized by the DDA;
   2. In compliance with billing protocols and a completed service report;
   3. Approved in the Individual Plan based on appropriate assessment and professional recommendations (if applicable); and
   4. Not otherwise available under the individual's private health insurance (if applicable), the Medicaid State plan or through other resources, including services available to an individual under a program funded through section 110 of the Rehabilitation Act of 1973 or section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401(16 and 17)).

B. When services are furnished to individuals returning to the community from a Medicaid institutional setting through entrance to the waiver, the costs of such services are considered to be incurred and billable when the person leaves the institutional setting and enters the waiver. The individual must be reasonably expected to be eligible for and to enroll in the waiver. If for any unseen reason, the individual does not enroll in the waiver (e.g., due to death or a significant change in condition), services may be billed to Medicaid as an administrative cost.
C. Devices, assessments, equipment and items that can be covered under the State Plan should be furnished to waiver participants.

D. Assistive technology and adaptive equipment evaluations and recommendations are limited to non-medical rehabilitation technology that is not regulated by other provisions.

E. Specifically excluded under this service are wheelchairs and power mobility, architectural modifications, adaptive driving, vehicle modifications, devices requiring a prescription by physicians or medical providers.

F. The following are not covered:

1. Services that are of the same type, duration and frequency as other services to which the participant is entitled under the participant’s private health insurance, the Medicaid State Plan, Division of Rehabilitation Services (DORS) or through other resources, including programs funded under the Rehabilitation Act of 1973, §110, or Individuals with Disabilities Education Act;
2. Services which are not part of a waiver participant's IP; and
3. Services, equipment, items or devices that are experimental or prohibited treatments by the State or federal authorities including the Health Occupations Licensing Boards and the Federal Drug Administration.

G. The provider is not entitled to reimbursement from the Program unless:

1. The waiver participant meets all waiver eligibility criteria at time of service delivery unless the person is returning to the community from a Medicaid institutional setting, and
2. The provider meets service reporting and invoicing requirements.

H. If the Program denies payment or requests repayment on the basis that an otherwise covered service was not programmatically necessary, the provider may not seek payment for that service from the participant.

I. Payment for services is based on compliance with billing protocols and a completed service report.

J. The provider’s administrative fee for providing the service shall not exceed 15% of the total cost of the service provided unless otherwise authorized by the DDA.
