Information in this guide is subject to change at the discretion of the Developmental Disability Administration to ensure the provision of quality service. This guide does not represent a guarantee or commitment of funding.
The Developmental Disabilities Administration (DDA) of the Maryland Department of Health and Mental Hygiene (DHMH) is committed to supporting children and adults with developmental disabilities (DD) and their families to live happy, healthy, independent lives, fully integrated in their communities!

DDA recognizes the critical role families play in supporting their family members at home, in school, at work and in the community. It offers programs and services that enable families to nurture and support their loved ones across the lifespan. DDA’s Low Intensity Support Services (LISS) is just such a program.

DDA’s Low Intensity Support Services (LISS) program serves children or adults with DD living at home with their family, or adults with DD living in their own home in the community.

LISS ...

- Is flexible to meet the needs of children, adults and their families as they grow and change across the lifespan.
- Provides up to $2,000 to assist children, adults and their families with purchasing services and/or items to address their needs.
- Enhances or improves the individual’s or family’s quality of life and promotes independence and community integration.

To promote equality and access for everyone LISS uses an automated system called the Random Selection Process (RSP) to select applicants who may be eligible for funding for those items and services that meet their needs. The entire process includes an application and selection process, eligibility determination, and the payment of eligible items and services.
Applicants must meet one of the following two criteria.

1. A child or an adult individual who is living in their family’s home and has a severe chronic disability that...
